Journal of Engineering Mathematics **27**: 465–466, 1993

Contents of Volume 27 (1993)

Vol. 27 No. 1 February 1993

P. McIver and G.S. Bennett: Scattering of water waves by axisymmetric bodies in a channel 1

J.R. King: 'Instantaneous source' solutions to a singular nonlinear diffusion equation 31

J.M. Boulton-Stone: A two-dimensional bubble near a free surface 73

Stuart Davidson: The linear steady thermoelastic problem for a strip with a collinear array of Griffith cracks parallel to its edges 89

Euromech meetings in 1993 and 1994 99

Instructions to authors 103

The 'KLUWER' LaTeX Style File: instructions to authors 105

Vol. 27 No. 2 May 1993

J. Billingham and D.J. Needham: Mathematical modelling of chemical clock reactions. II. A class of autocatalytic clock reaction schemes 113

L. Li, W.W. Schultz and H. Merte, Jr.: The velocity potential and the interacting force for two spheres moving perpendicularly to the line joining their centers 147

S.K. Wilson: The effect of a uniform magnetic field on the onset of steady Bénard-Marangoni convection in a layer of conducting fluid 161

A.I. van de Vooren: The connection between Ekman and Stewartson layers for a rotating disk 189

A.M.J. Davis: Stokes drag on a disk sedimenting edgewise toward a plane wall 209

T. Sano: Mixed convection around a horizontal circular cylinder immersed in a Darcy flow 221

Vol. 27 No. 3 August 1993

M.E. Muwezwa: Spatial stability of the Daniels and Eagles profiles 233

A. Siginer and R. Knight: Swirling free surface flow in cylindrical containers 245

M.A. Chaudhary and J.H. Merkin: The effects of blowing and suction on free convection boundary layers on vertical surfaces with prescribed heat flux 265

B.J. Geurts and H. Kuerten: Numerical aspects of a block structured compressible flow solver 293

R.I. Bowles and F.T. Smith: On boundary-layer transition in transonic flow 309

Vol. 27 No. 4 November 1993

J.M. Dorrepaal: Slip flow in converging and diverging channels 343

J.R. King: Multidimensional singular diffusion 357

A. Beck and H. Grabmüller: Wrinkle-free solutions in the theory of curved circular membranes 389

A. Ramu and M.P. Ranga Rao: Converging spherical and cylindrical shock waves 411

S.R. Belward and L.K. Forbes: Fully non-linear two-layer flow over arbitrary topography 419

B.D. Hull: Analysis of fibre wrinkling during squeezing flows of fibre-reinforced composites 433

C. Atkinson and B. Peltier: The finite deformation of a reinforced packer, membrane theory 443
